COMMERCIAL NOTES

Flour Markets Furnish Very Few - Encouraging Features.

PROVISIONS ON THE EVE OF A RISE. Harness Manufacturers Report Spring

Trade Extra Good.

IMPROVED TONE TO PRODUCE TRADE

OFFICE OF PITTSBURG DISPATCE, TUESDAY, May 7, 1889.

The current number of the Minneapolis Miller finds few crumbs of comfort from the wheat and flour situation. Among many mouraful reflections in the editorial columns are the following: "Our millers are, as a rule, a level-headed class of men, but this season has upset their calculations. Statisties have been misleading, figures have lied, the unexpected has occurred. It has been a year of mistakes for millers and their customers. Consumers bought when they should have refused, and could not be persunded to buy when it was to their interest. There is more interest in speculative breadstuffs than in either actual wheat or flour.

ures. Buyers lack confidence. There is no lack of wheat for all purposes." The same journal's London corresponden eports: "Wheat and flour market is dull.

reports: "Wheat and flour market is dull.
Seasonable weather has approved the outlook
for the coming crop. The season is too far advanced for any pinch in supplies. French news
are not encouraging to helders."

The entire tone of the Miller is bearish as to
the flour situation. Our home jobbers report
that the hand-to-mouth policy is generally pursued by their customers. With a steady downward drift for months past, it has been a risky
business to carry large stocks. A leading jobber said to-day: "I have seldom known the
time when my customers were carrying such
light stocks of flour. Some are borrowing from
their neighbors until such a time as they think
bettom is reached."

Provisions Firmer.

Markets are a shade firmer at Chicago to-day, but the firmness has not arrived here as yet. A representative of one of our leading packing "Our trade is not up to what it was this time last year. But there it plenty of time yet to recover lost ground. Our best months are July, August and September for smoked meat. We cannot make predictions as smoked meat. We cannot make predictions as to trade. I have known pork packers here to be \$30,000 to \$40,000 ahead in August, and at the end of the season, November 1, come out no better than the previous year. On the other hand, I have known them to be behind in August and wind up the season with an advance of \$30,000 to \$40,000. We have seen that time when we had a clear prefit of 4c a

an advance of \$30,000 to \$40,000. We have seen the time when we had a clear profit of 4c a pound on hams by the rise of markets. Now we would be mightly glad to close out our entire stock of provisions at a profit of 1c ber pound. We could not, by a long ways, do this at present prices of hog products. But we live in hopes that prices will soon advance. Already there are signs of an upward movement, and we abide in the faith and hope that our labor will not be in vain. You may say for me, however, that we who are in the packing business will be content to reap 6 per cent on our nees will be content to reap 6 per cent on our investment this season." Harness All Right.

In the midst of the generally solemn talk over the commercial situation it is good to find an timist who has nothing but good to say of his trade. One of our leading manufacturers of harness and a dealer in all kinds of horse quipments said to-day: "Our trade for the irst four months of this year was better than we ever had for the same period. In January our business was \$5.000 better than the previous our ousness was sayou better than the previous January. Our spring trade opened up briskly a few weeks ahead of its usual time, owing to the fine weather in the latter part of March and early part of April. We have been sending goods of late as far South as Florida and as far West as Kansas. Turf goods are in firstrate lemand. The drop in leather does not amount to more than le per pound on the high grades. You may say to the readers of THE DISPATCH that, so far as one dealer's harness trade is concerned, there has been an increase of 30 per cent for the past four months over the corresponding months of last year."

Country Produce. The marked feature of our home markets this week is the advance in eggs. The mother hen has been so long at work that she has con-cluded at last to rest on her eggs and provide future producers. Creamery butter is destined to take a lower level before the week is out. to take a lower level before the week is out. Potatoes are moving out more freely than they have done for months past. Said a Liberty street produce commission merchant, who is not inclined to be an optimist: "I feel that we have turned the corner and that a season of activity is at hand. We had an unusually good Monday, and to day we have no reason to complete." There is a great runb for notations and a. There is a great rush for potatoes and se apples, which have been slow all the winter and spring."

It remains now for all hands to look at the bright side and a better day will soon dawn on

Hogs—Boceipts, no throughs; 10 leads sais; Yorkers and mediums unchanged; pigs fair domand at 44 55.

MARKETS BY WIRE.

Speculation in Wheat Still Based on the Weather-Prices Rule Lower-Corn and Oats Quiet-A Hustle for July Porke

CHICAGO-Only a light business was tran acted in wheat to-day, and speculation as on yesterday, was based almost wholly upon the weather, especially in the Northwest. The opening was about 160 lower than yesterday's closing, and steadily declined 150 more under rather free speculative offerings, some lines of long wheat coming on the market. Operators were influenced by reports of rain from the Northwest, but later advices reported the rain not heavy, and that it was clearing up, the wind hot and the ground drying up fast. There was a recovery of 100% above inside figures, but again eased off, closing 1/2c lower than yes terday. Outside news had but little effect of

the market. Corn ruled quiet and inactive most of the corn rated quiet and matter to local traders, and factuations were confined within 1/20 range. The prevailing teeling was one of steadiness, and prices showed but little change from yesterday.

steadiness, and prices showed but little change from yesterday.

Oats were fairly active, but weak and lower. Operators loaded up freely yesterday and wanted to sell to-day. Outside orders were in light supply, and an increase in offerings caused a weak feeling and a decline of \(\frac{1}{2}\) con June and July, which were the chief deliveries traded in. May, however, remained slow, and only declined \(\frac{3}{2}\)C.

Considerable interest was manifested in mess erable interest was manifested in mes

considerable interest was manifested in mess pork, and speculative trading was quite active, though largely in contracts for July. Sales at the opening were made at a slight advance, but this was quickly lost. With good buying prices rallied 25@275c and closed steady.

Trading was light in lard and the feeling was stronger. Prices were advanced 5@75c, these appreciations being moderately well supported. The flour market has no encouraging feat-

appreciations being moderately well supported.

A fairly active trade was reported in short ribs and the feeling was stronger. Prices advanced 7½@10c and closed steady.

The leading rutures ranged as follows:

September 1

Flour Sixteen Dollars a Barrel and Bacon One Dollar a Pound.

THE EAST END STILL MARCHING ON. Advantages and Disadvantages of Trading in Petroleum Futures.

DICKERING FOR VALUABLE PROPERTY

In the spring of 1775 provisions were so until the last hour, when there was a jump to scarce in Pittsburg that flour sold at \$16 a 84%c, at which it closed.

erty out there is astonishing, and at the rate sales are being made, it will not be long until everything will be gobbled. Unim-proved lots are already becoming scarce. Building is going forward at a great rate. I know of several contractors who have refused work because of their inability to perform it within the time specified. In a few years that entire section will be a compact mass of buildings, extending from Wilkinsburg to the old city. The center of population will then be at Shadyside or Roup."

The project for trading in oil futures the same as in wheat, corn, pork and other pro-ducts was fully discussed at a conference of delegates from all the exchanges held here yesterday, and was unanimously recommended for adoption. This, it is thought, will be done, although considerable opposition is expected, especially in Pittsburg. Among the advantages plaimed for the new plan are these: It would enlarge the field of operations by inducing outside trading, and thus relieve the professionals from the onerous burden of running the market alone, and it would do away with high pre miums, which at present are paralyzing trade. The strongest objection to it is that the dealings would have to be carried on without the help of the Clearing House, as it would be impossible to keep track of the transactions. But as any change would be for the better, a fair trial of the system could work no particular harm and might be of great benefit to the market. Whether or not it would open the door to the Standard for the introduction of Lima oil is a question which it would be well to consider and settle beforehand.

Several rumors are floating around in regard to the Singer property at Wilkinsburg. One is to the effect that a cash offer of \$75,000 has been made for it. Another that a syndicate is ready to take it at \$100,000. Both of these stories may be unfounded, but it is certain that it is the subject of a dicker of some kind. The property is one of the finest in that section. It consists of 33 acres of highly improved land, and a stone mansion that cost \$65,000 about 20 years ago, when it was the costliest dwelling in

Philadelphia has an architect in Mrs. Minerya Parker, who demonstrates that women may fit themselves for that profession. She has famil-iarized herself not only with her profession, but with every detail of the building trade; she can judge of the material which is to go into the house and the way in which the work is carried out as well as any master builder in the

OIL BRACES UP.

An Active Market Closes Two Cents Higher The oil market opened rather slumpy yester-day, with heavy selling here to get in out of the wet. The first price was 83%c, 1/c under the close of Monday. It then sold down to 81%c, from which there was a recovery to 82%c. A little later on about 11 o'clock, the market broke again and sold at 80%c. From this point there was a quick rally to 81%c, where it held

barrel and becon at \$1 a pound. Now flour can be bought at \$5 and bacon at \$6 10 cents. At the former date lots were almost a broker said: "The market, after such au adherence to be a broker said: "The market, after such au adherence to be a broker said: "The market, after such au adherence to be a broker said: "The market, after such au adherence to be a broker said: "The market, after such au adherence to be a broker said: "The market, after such au adherence to be a broker said: "The market, after such au adherence to be a broker said: "The market, after such au adherence to be a broker said: "The market, after such au adherence to be a broker said: "The market, after such au adherence to be a broker said: "The market all of the exchanges." given away; now they readily bring from \$2,000 to \$5,000 a front foot. Truly, time has worked wonders in Pittsburg.

"The East End is to be the heart of the new Pittsburg," remarked a real estate dealer, yesterday. "The demand for property out there is astonishing and at the rate."

A broker said: "The market, after such an advance as was experienced to-day, is likely to slump a little and sell aroum \$30, from which point I look for it to seek a higher level." Another broker said he expected a break to-day. The fact is, the market is in such a chaotic state that nobody can predict with certainty what its future course will be.

A. B. McGrew & Co. quote: Puts, 83% to 82%; calls, 55%.

Features of the Market. Jearances New York closed \$1½. Oil City closed \$4½. Bradford closed \$4½. Befined, New York, 6.55. Refined, London, 5½. Refined, Antwerp, 10½.

TITUSVILLE, May 7.—National transit certificates opened at 82%c; highest, 84%c; lowest, 81c; closed, 84%c. NEW YORK, May 7.—The petroleum market opened steady at \$2% c and declined to \$0% c in the forenoon. The market then turned and advanced sharply on an attempt to cover by Western shorts and closed strong at \$4% c. Sales 2,011,000 barrels.

GETS ITS SECOND WIND.

The Real Estate Market Entering Upon New Era of Activity. Alles & Balley, 164 Fourth avenue, sold for

T. Griffen to John G. Keisel four brick dwellings of six rooms each and improvements, lot 68x100 to an alley, on Jones street, near Wylie avenue, for \$5,950 cash. L. O. Frazier, corner Forty-fifth and Butler streets, sold for William Velte a new modern frame dwelling of five rooms, lot 20x100 feet to an alley, situate on the north side of Liberty

avenue, near Fortieth street, Sixteenth ward, to William A. Royston, for \$2,700. Reed B. Coyle & Co., 131 Fourth avenue, sold Keed B. Coyle & Co., 131 Fourth avenue, sond for George A. Watson and Jacob Lang to George W. Acklin, lot 50x181, on Bayard street, near Neville, for \$2,359 cash.

Thomas McCaffrey, 3509 Butler street, reports the following: Sold for Conner Riley to Michael Scanlon property 4904 Hatfield street, lot 29x98, two-story frame, tin-roof house of six rooms, finished attle, and a two-story frame, tin-roof house of four rooms, in rear, for \$2,300 cash.

years ago, when it was the costliest dwelling in the county. The interior is finished in hard wood, which, with the mantels, tiles, etc., was imported. If purchased by the syndicate the ground will be subdivided into about 20 lots, at \$1,000 each. This would insure a handsome profit to the purchasers.

The right of way is being secured this week for the extension of the main pipe of the Wilkinsburg water works to North Braddock, by way of Hawkins and Copeland. The supply furnished by the Braddock works is objectionable on account of the large proportion of mud and other impurities it contains, being pumped directly from the Monongahela river. Brushton, part of Park Place and Edgewood will also obtain water from Wilkinsburg.

STOCKS RATTLED

By the Decline in Pig Iron-The Market Feverish and Unsettled-Philadelphia Gas Conspicuously Weak-Railroad Bonds Strong. NEW YORK, May 7 .- The stock market to-

As was more active, especially in the forenoon, when there was a strong tone displayed, but it later yielded to the attacks of the bears and drifted into duliness, finally closing at but slight changes for the day. The London figures came lower this morning, and partly in sym-pathy with that center and partly because of the tendency to realize among the traders upon the reduction in the price of pig iron, which is in a measure regarded as the barometer of the industrial world, the opening here was feverish

The stock market, as a whole, was dull and weak yesterday, the 4rading being limited to four issues, the sales of which amounted to 855 shares. The effects of the report of the Philadelphia Gas Company were felt even to a greater degree than the day before, the first sale being at 30%, and the last at 30%. It closed fairly steady at the best prices. Wheeling Gas was weak on the strength of Monday's report, 100 shares going at 30%, and closing weak. There was a bind of 3% for Bridgewater Gas.

The only movement in Tractions was a sale of 10 shares of Central at 30. They may be was a slight movement in Pittsburg and Western preferred at 19%. The best bid for Electric was 68. Switch and Signal was wanted at 24% in the worning and at 30% in the evening, but holders were not willing to let it go at that price. In the absence of Captain Barbour, offers and sales follow:

LINE OF PRODUCE TRADE BETTER

Few Signs of Life to Cereals-Hay is Particularly Weak.

THE DRIFT OF FLOUR IS DOWNWARD

Country Produce-Jobbing Prices. Eggs keep climbing upward. Between set-ting hens and putting into cold storage, sup-plies have greatly fallen off and demand has passed supply for the reliable article. Butter continues to drop. The new grass begins to count big. Tropical fruits move out freely. A Liberty street firm reports receipts of eight car loads of bananas this week, with one-half already sold. Light arrivals in New York have stimulated markets for tropical fruits. Trade in produce lines continues to improve, and all signs point to an active week. Yesterday was the best Monday this season. There is a good demand for potatoes and apples as the season draws toward the close. 15 DOCTORS FAILED To cure Mrs. Thomas Hatton, and she suffered on for 13 years. The aches and pains which she experienced in almost every part of her body was simply terrible. Those sharp, cutting pains across the small of her back and lower part of her body was almost unbearable. In fact she suffered with all those diseases and conditions peculiar to women. For three months her mind was unbalanced, and for months she was confined to her bed. She became very weak and emaciated, so that she only weighed 26 pounds. No one expected her to live, much less get entirely cured. After receiving three months' treatment with the physicians of the Catarrh and Dyspepsia Institute, 22 Penn avenue, who make a specialty of her disease, she says:

her disease, she says:

"I never want any one to suffer as I have for
the past 13 years. The condition of my case
was much worse than has been described, and
I am only too giad to testify to my complete
cure by the doctors of the Catarrh and Dysnessia Institute. "MRS. THOMAS HATTON, Putnam, Pa."

REV. THOS. T. EVANS

WRETCHED CONDITION.

A Statement Which Carries Conviction With It-Marvelous Effects of Dr. Smith's Magnetic Treat-

ment

AT 502 PENN AVENUE

the First Baptist Church at Banksville, Pa., has been a confirmed invalid since 1881. For the

past eight years he has been afflicted with neumatism more or less of the time, and for the past three years his sufferings have been so terrible that life had become a burden to him. He complained of tearing, aching pains all seat of horrible neuralgic pains, which ex-tended through to his back and radiated from there to his shoulder blades. The pain came on in paroxysms, which increased in violence on in paroxysms, which increased in violance until his body was bent double. The pain was usually agyravated after enting, and would continue unabated until every particle of food passed out of his stomach. As soon as the stomach became empty he complained of a faint, all-gone feeling in it. His bowels were obstinately constipated, and were only moved by taking catharties. He suffered from an aching, tearing pain in the small of the back, palpitation of the heart and sharp stitching pain in his side. Mr. Evans had suffered so long without finding relief that he had given up all hopes of recovery, and when we consider his terrible condition we do not wonder that he had little if any faith that Dr. Smith would benefit his condition. Bemember that he had suffered eight years with rheumatism, which was associated with dyspepsia, constipation and neuralgis of the stomach in an aggravated form. Spasms of pain in his stomach and bowels would seize him and bend his body double. These horrible pains would continue without intermission until his body was bathed in profuse perspiration and until he would faint from exhaustion. In this pitiable condition he applied to Dr. Smith, the magnetic breatments in connection with a little medicine, Mr. Evans could eat without distress, sleep well, and go about from day to day with never a sense of weariness or distress. Rev. Mr. Evans stated in Dr. Smith's office last Saturday that when he applied to Dr. Smith's treatment gave him the first relief from suffering that he has had during his entire liness. Mr. Evans may be referred to at his present resigence, No. 23 Eighth street, Beltzhouver, Pa., and will cheerfully vouch for the truthfulness of this statement. Dr. Smith's treatment gave him the first relief from suffering that he has had during his entire lilness. Mr. Evans may be referred to at his present resigence, No. 23 Eighth street, Beltzhouver, Pa., and will cheerfully vouch for the violate, constipation, fissures, catarrh of the bladder, stone in the bladder and all disea until his body was bent double. The pain was usually aggravated after eating, and would In the treatment of piles, fistulæ, constipation, fissures, catarrh of the bladder, stone in the bladder and all diseases of women, Dr. Smith stands without a rival, and will permanently oure every case he undertakes. All letters of inquiry must contain two stamps. If you or any of your friends are sick, do not give up in

spair until you see Dr. Smith.
